

Chartered Information Session

The Chartered credential is one of Engineers Australia's key offerings and is also an important marker to industry and the community of independent, competent and ethical practice.

Astley Pung, EA Regional Business Development Manager for Asia will:

- Provide an overview of the enhanced process
- Present the transition options available from the current eChartered process to the enhanced program
- Include an audience Q&A session

Registrations now open so please reserve your spot early to avoid disappointment!

SPEAKER BIO

Astley Pung

Regional Business Development Manager | Asia

Astley is based in Kuala Lumpur, Malaysia and has responsibility for business development activities across the region of Asia. Astley provides support to our members in Malaysia, Singapore and Hong Kong, and work closely with industry, academia and government to strengthen EA's offering in the Asian Region.

Astley's background includes strategic planning, policy and standards, learning and training, besides business and market development activities. His role includes the implementation of the strategic plan of EA in Asia and to develop collaboration partners, to better serve the members and industry.
