

Engineers Australia – Hong Kong Chapter

Technical Visit

WEEE Park – (Waste Electrical & Electronic Equipment Treatment & Recycling Facility)

The Hong Kong Government entered into a contract with ALBA IWS to design and build the Waste Electrical and Electronic Equipment Treatment and Recycling Facility (WEEE-PARK), provide a collection service and operate the facility until 2027. The facility uses state-of-the-art technology provided by the ALBA Group to process refrigerators, TVs, computers, washing machines and air conditioners into valuable secondary raw materials while controlling the management of the hazardous materials that are contained in this equipment.

The WEEE Treatment and Recycling Facility - WEEE-PARK is the first of its kind in Hong Kong to collect, sort, detoxicate, dismantle and recycle television sets, washing machines, refrigerators, air conditioners, as well as computers and certain associated devices including printers, scanners, and monitors. With ALBA IWS state of the art German technology, it will be able to deliver exceptional recycling rates of over 80%.

Waste Electrical and Electronic Equipment Treatment and Recycling Facility (WEEETRF) Facility Organization

Date & Time: 16 March 2019 9:00am – 10:30am

Venue: EcoPark, 133 Lung Mun Road, Tuen Mun Area 38, N.T. Hong Kong

CPD of 1.5 hours will be issued after the visit

Contact: Dr Alex Cheung (9832 5750)
